Satisfied ARI Customers

"After using our ARI sleeper for over a year, we continue to be impressed with ARI's product quality and service. We shopped around. ARI got our business because they made it easy to think through all the options and spec the sleeper we wanted. The price was right too. This sleeper was built to last. We are confident it will serve us well for ten years or more." - Phil and Diane Madson

"We would recommend an ARI sleeper to anyone! We talked to everyone and you can tell by looking that the quality of ARI is better. We were impressed before and we are even more impressed now that we own it! There is a huge savings from a studio sleeper to our ARI, just in the money we save from eating out, and it is a lot healthier!" - Don and Donna Haynes

"Owning a sleeper has changed my life so drastically. When people ask me, I tell them don't wait!" - Fred Williams

"I tell everyone I meet to buy an ARI Sleeper. They are the quietest going down the road and they have the best service department!" - Dave Weston

"Having the ARI sleeper really has improved our quality of life on the road. We make more money because we can stay out on the road longer. It is our home on the road." - Keith and Donna Odom

"The sleeper is great, I have had no problems with it. I am looking forward to doing business with ARI again. I will defiantly tell my friends about ARI." - John Ogle

"We save between \$800 and \$1200 per month on food alone. We can not walk out of a truck stop with out spending \$30 for the two of us to eat. I saved over \$3,000 last year in fuel costs because of my generator and not needing to idle the truck." - John and Carla Berry
